INDEPENDENT AUDITOR'S REPORT

Board of Directors
Capital Management Consultants, Inc.
Northbrook, Illinois

We have audited the accompanying balance sheet of Capital Management Consultants, Inc. (the "Company") as of December 31, 2007 and the related statement of earnings from operations and retained earnings and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above, present fairly, in all material respects, the financial position of the Company as of December 31, 2007, and the results of their operations and their cash flows for the year then ended in conformity with generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements, taken as a whole. The supplemental schedules included with this report, although not considered necessary for a fair presentation of the financial position and results of operations of the Company, is required as supplementary information required by rule 17a-5 of the Securities and Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the examinations of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

REPORT ON MATERIAL INADEQUACIES

Board of Directors
Capital Management Consultants, Inc.
Northbrook, Illinois

In planning and performing our audit of the financial statements and supplemental schedules of Capital Management Consultants, Inc. for the year ended December 31, 2007, we considered its internal control structure over financial reporting in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure over financial reporting.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g), in making the periodic computations of aggregated indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1) Making quarterly securities examinations, counts, verifications and comparisons
- 2) Recordation of differences required by rule 17a-13
- 3) Complying with the requirements for prompt payment for securities under Section 8 of the Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure over financial reporting would not necessarily disclose all matters in the internal control structure over financial reporting that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level, the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur, and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matter involving the internal control structure over financial reporting and its operations that we consider to be material weaknesses.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities and Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and our study, we believe that the Company's practices and procedures were adequate at December 31, 2007 to meet the SEC's objectives.

This report is intended solely for the use of the Member, management, the Securities and Exchange Commission, the National Association of Securities Dealers, Inc. and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers and should not be used for any other purpose.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2007

NOTE 1 - NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations:

The Company is a registered broker dealer and a member of the National Association of Securities Dealers, Inc. It has been registered with the Securities and Exchange Commission and the State of Illinois Securities Department. The Company was incorporated under laws of the state of Illinois on September 1, 1987.

Basis of Financial Statement Presentation:

This summary is presented to assist in understanding the Organization's financial statements. The financial statements are representations of management who are responsible for their integrity and objectivity. These accounting principles conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

Cash and Cash Equivalents:

The Organization considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents at December 31, 2007 consisted of a checking account with a balance of \$75.

Deferred Income Taxes:

Statement of Accounting Standards No. 109 requires an asset and liability approach to financial accounting and the reporting for income taxes. Under the asset and liability method, deferred tax assets are recognized for deductible temporary differences and operating loss or tax credit carryforwards, and tax liabilities are recognized for taxable temporary differences. Temporary differences are the difference between the amounts of assets and liabilities recorded for income tax and financial reporting purposes. Deferred tax assets are reduced by a valuation allowance when management determines that it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

CAPTITAL MANAGEMENT CONSULTANTS, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2007

NOTE 2 - INCOME TAXES

Based on the current year operating loss, the Company has recorded a tax benefit and subsequent deferred tax asset of \$1,085. No valuation allowance has been established as management has determined that the deferred tax asset will be realized prior to the expiration of the loss carryforward.

NOTE 3 - NET CAPITAL REQUIREMENTS

The Company is subject to rule 15c 3-1 of the Securities Exchange Act of 1934 which requires the Company to maintain a ratio of aggregate indebtedness to net capital, as defined, not to exceed 8 to 1, or 800%. In addition, net capital shall not be less than \$5,000. At December 31, 2007, net capital was \$11,015 and the ratio of aggregate indebtedness to net capital was 103%.

The net capital requirements are currently under review with the Securities and Exchange Commission based on an examination of the books and records of Capital Management Consultants, Inc. SEC File No. 8-37924 as of September 30, 2007. As of the audit report date, the Company is in the process of responding to this matter, and no conclusion can be attained at this time.

NOTE 4 - SHORT-TERM INVESTMENTS

The Company has an investment in a short-term income mutual fund account the principal investments of which consist of income-producing debt securities. The asset is valued at market value which is equal to \$24,491 at December 31, 2007.

Instructions: Detail Listing must include the total of items maturing during the six month period following the report date, regardless of whether or not the capital contribution is expected to be renewed. The schedule must also include proposed capital withdrawals scheduled within the six month period following the report date including the proposed redemption of stock and anticipated accruals which would cause a reduction of Net Capital. These anticipated accruals would include amounts of bonuses, partners' drawing accounts, taxes, and interest on capital, voluntary contributions to pension or profit sharing plans, etc., which have not been deducted in the computation of Net Capital, but which you anticipate will be paid within the next six months.
